**To:** Houle, Brian (Crofton)  
**Subject:** Weekly Watershed Update, July 13

Greetings everyone,

Conditions remain unchanged with lake level just able to support the current release flow of 7 cms.

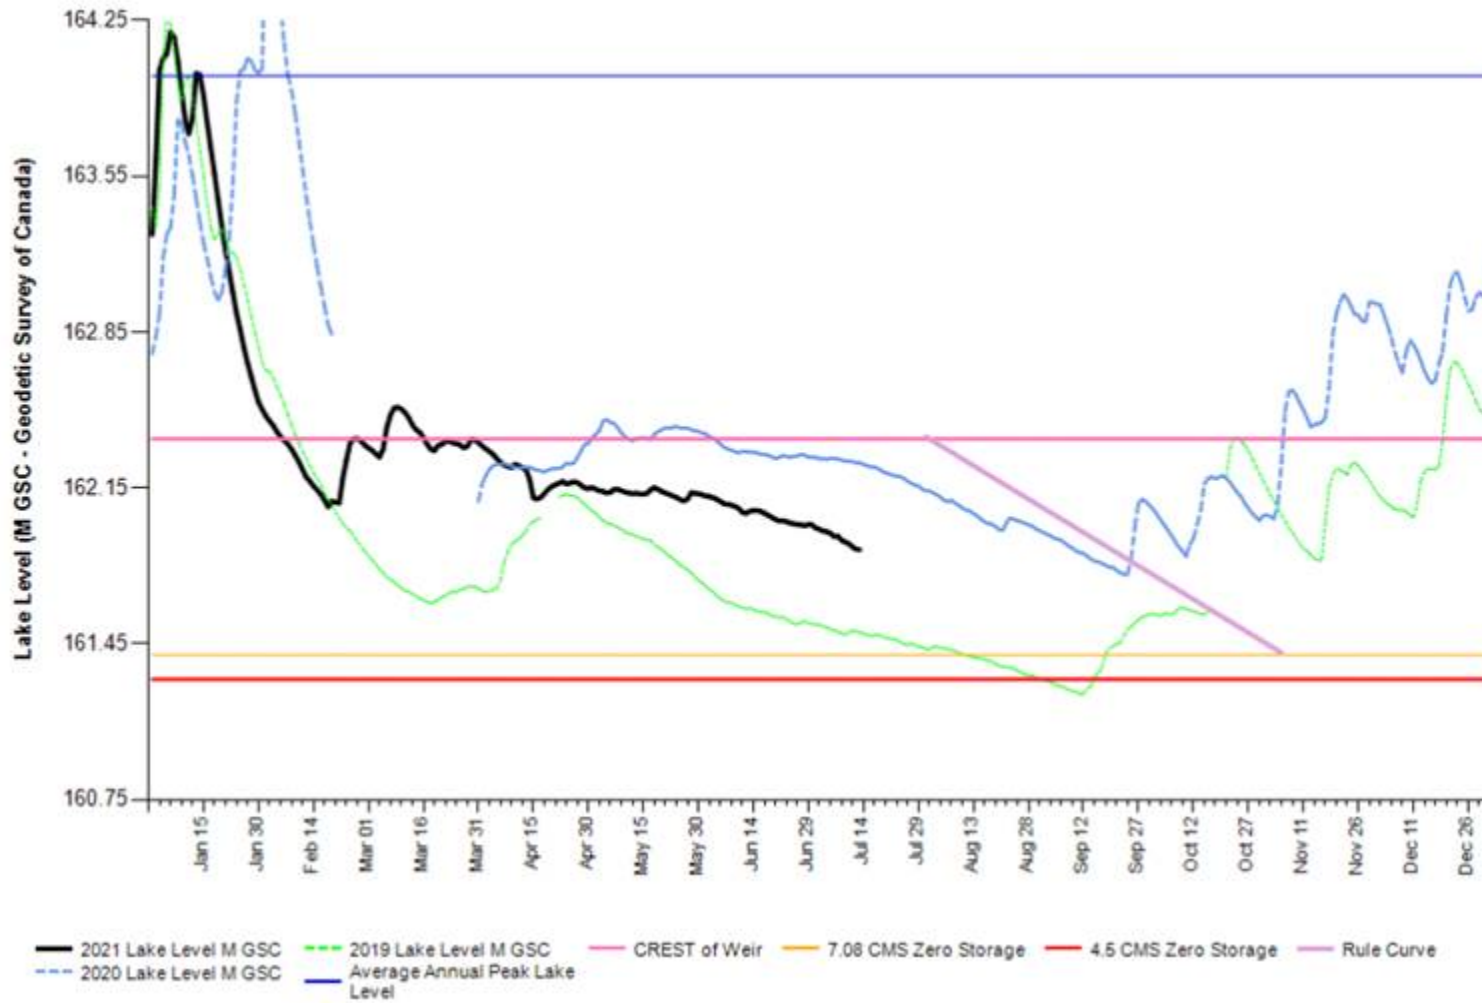

Weather prediction continues to show dry weather and with snow pack fully melted, lake level is now on decline for remainder of dry season.

If lake level continues to decline and into yellow zone where a lower river flow is recommended, special meetings will be scheduled to develop a flow reduction plan.

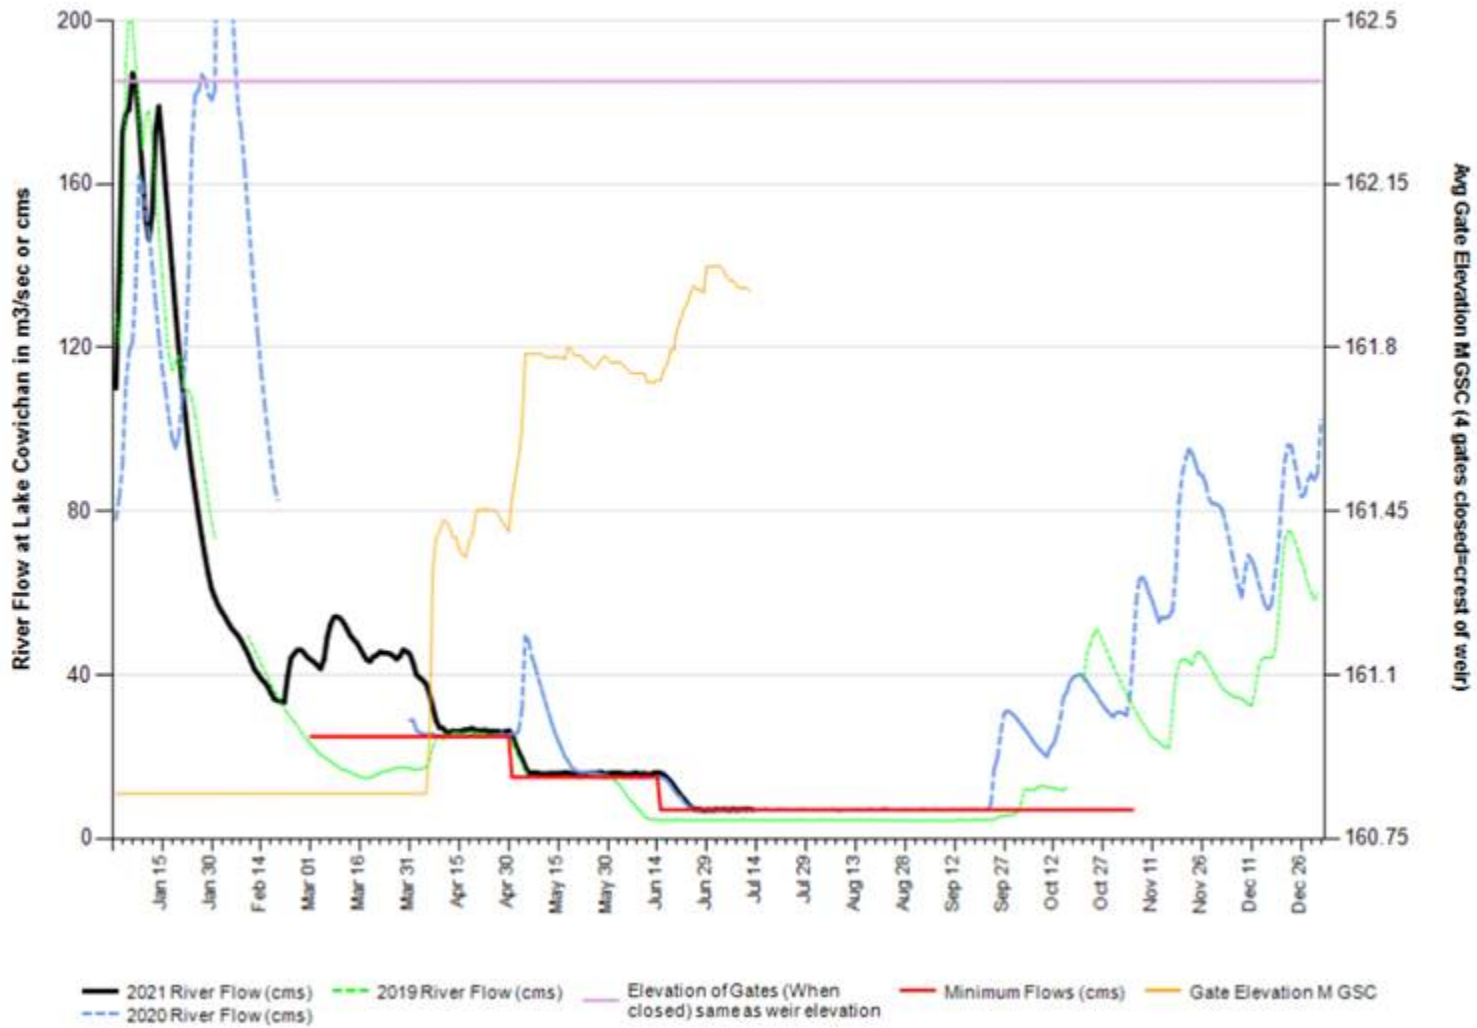

Regards,

Brian Houle
