

**PAPER
EXCELLENCE**

PRINCE ALBERT

Our team has developed the start-up business plan for Prince Albert and is actively working toward restarting the mill. As part of that work, we are expanding our Prince Albert team, continuing with our engineering work, actively engaging with the provincial government and building Indigenous partnerships in the region.

Upon restart, the mill will create 200 direct jobs and support an additional 1,450 indirect jobs. With an annual capacity of 350,000 tonnes of Northern Bleached Softwood Kraft (NBSK), it will consume 1.8 million m3 of fibre annually.

Email us for more information about the restart: princealbert@paperexcellence.com

FACILITIES AND PRODUCTION CAPACITY

- The mill has an annual capacity of 340,000 tonnes of Northern Bleached Softwood Kraft (NBSK).
- NBSK pulp is composed of longer fibres and is primarily used as reinforcement pulp.
- It is used for manufacturing a variety of paper products including printing and writing paper, specialty grades and a range of tissue products.

ECONOMIC CONTRIBUTION

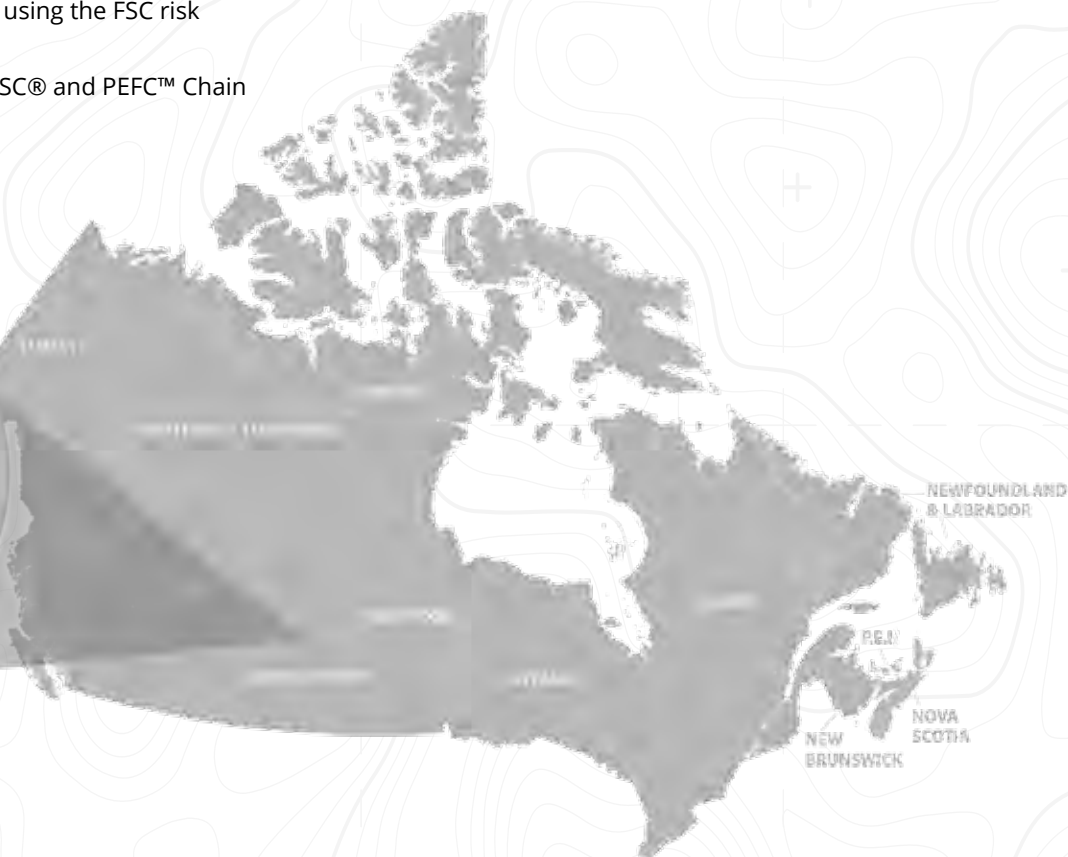

- 200 direct jobs and 1450 indirect jobs once restarted
- Actively seeking Indigenous partnerships for both mill operations and fibre supply.
- An estimated \$300 million in economic contribution
- Local property taxation of more than \$700,000 annually

CARING FOR THE ENVIRONMENT

- ISO 14001 environmental management system certified
- 100% of their wood fibre is low risk using the FSC risk assessment process
- Certified to FSC Controlled Wood; FSC® and PEFC™ Chain of Custody

SOCIAL ENDEAVOURS

- Robust health and safety program to help protect employees both before and after restart
- Community and First Nations scholarships for students in the Saskatchewan Rivers Public School Division
