

Governance Structure

In today's world, sustainability governance is key to building a company's reputation, earning customer trust and inspiring employee loyalty.

Top Decision Makers

Our Global Sustainability Steering Committee includes the top decision makers who lead the company.

Experts & Business Leads

Our Business Unit Sustainability Committees include subject matter experts and business leads across the nine focus areas of our strategy.

Our Sustainability Corporate Center and Business Units are responsible for day-to-day implementation of our sustainability strategy.

Every Employee

Each person involved in our sustainability governance structure is committed to being transparent and keeping our stakeholders informed on our progress.
